CASTELL DE
CAPDEPERA

Mercat Medieval de Capdepera

Una de les principals senyes d'identitat del nostre poble és el Castell. Situat dalt d'un pujol, el Castell és visible des de tot el terme, i per tant des d'aquí dalt es podia vigilar tot el territori. Per això, allà hi hagué un assentament andalusi i posteriorment s'hi establí un dels senyors de la conquesta catalana, en Miquel Nunis. Cap al 1300, el rei Jaume II hi manà construir una vila fortificada.

Aquest concepte de vigia del Castell s'ha mantingut al llarg dels segles, inicialment com a element defensiu i, posteriorment, com a icona històrica i espiritual del nostre poble.

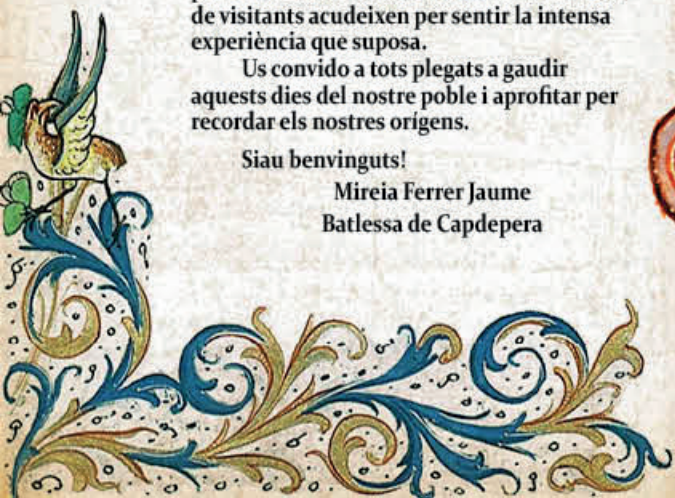

Des de l'any 2000 se celebra al voltant del recinte fortificat la recreació d'un mercat medieval. Els mercats a l'edat mitjana eren llocs d'intercanvi, normalment situats a llocs estratègics, a cruïlles de camins o a les places de grans viles; en realitat tota la ciutat medieval era un gran mercat. Aquest és el sentit del mercat medieval de Capdepera: tota la vila es converteix en un gran espai d'intercanvi de productes, d'idees i sensacions on els perfums i l'escenografia ens transporten a una època pretèrita.

Gabellins de tot arreu solen aprofitar aquestes dates per reunir-se amb les seves famílies i milers de visitants acudeixen per sentir la intensa experiència que suposa.

Us convido a tots plegats a gaudir aquests dies del nostre poble i aprofitar per recordar els nostres orígens.

Siau benvinguts!
